## Case studies

### Don't just take our word for it

<p>Blackbear helped us research sustainable propositions in financial services. The professional was highly knowledgeable, brought forward great practical examples, demonstrated a lot of dedication and prepared a thorough report. The key takeaways we received afterwards also provided a comprehensive overview of trends we need to consider in the future.</p> <p><b>Tamara Kleinveld</b> Product &amp; Proposition Manager</p>	<p>With support from a blackbear professional, we created the AutoBinck Group Sustainability factbook. We experienced the collaboration as very pleasant — the meetings were well-prepared and the right details were highlighted at the right time. Fast execution, precise work and excellent communication throughout the process.</p> <p><b>Floortje Stroeve-Vink</b> Communications Manager</p>	<p>For our commercial operations, we were in urgent need of desk research into the sustainability commitments of a few key organisations. Blackbear and the professionals we worked with delivered top-quality one-pagers that contained precisely the information we were looking for. The collaboration was efficient and we received our deliverables on time, despite a tight deadline.</p> <p><b>Ankita Nistane</b> Strategic Marketing Manager</p>

## Types of work

### Get work done on your own terms

- Short Assignments**  
 In case you need an extra pair of hands for a short assignment like research, data validation or strategy.
- Temporary Roles**  
 For when you need additional capacity or a specific skill set for a set duration or a few hours per month.
- Projects**  
 Don't let complexity intimidate you! We find the skills you need and help you execute large projects, start to finish.

## Meet your flex-work needs

Want to explore how our extended workforce solution can support your sustainability efforts more concretely? Talk to one of our experts, no strings attached.
